# Connecting to the BCPS BYOD Network

Use your device wifi settings to connect to open broadcast network: **'BYOD'**

When prompted, enter the network security key: **'internet'**

This 'Welcome Portal' appears after connecting to BYOD and opening a web browser:

Click the link to review the Acceptable Use Policy and login.

For Staff, enter your 8-digit P number and current AD password then click the Login button.

For Students, enter your 10-digit student number and current AD password then click the Login button.

For Guests, enter ____guest and today's password _____

Students who choose to bring a device will do so voluntarily and will be fully responsible for their device. Device must meet standards found within the BYOD Guidelines so they are adequate for learning.

Teachers can choose to allow students to participate in classroom activities using their own device. Teachers are not responsible for technical support of the student device.

TLC and Micro-techs will not be responsible for supporting personal devices. Owners must be aware of how to use their device.
