Dear Test Coordinator and ESOL Contact,

The report **"0000_Access_for_ELLs_Student_Demographic_2021"** was posted in your school's DWH Reports Folder.

The purpose of this report is to:

a. **Report the TIER Placement submitted to the State during Survey 2** (October 09, 2020).
The TIER that was reported during Survey 2 was used to order the test materials being sent to your school **(See "Post Survey 2 Changes" in Column *N* in order to identify ELL students whose TIER is linked to ordered materials)**.

Please note: Your school will still receive materials for those students who were enrolled at your school during Survey 2 but have moved post Survey 2. A small overage will be included in this initial shipment as well.

b. Report the TIER Placement of Post Survey 2 ELL students* (See Column *N* in the report) in order to identify those students whose TIER is <u>not</u> linked to ordered materials)..
- **"Post Survey 2 Change - Order ACCESS for ELLs" – Tiers A, B, C, or Z.**
- **"Post Survey 2 Change - Order Alternate ACCESS for ELLs" – Tier D (ALT).**

o   Students reported with these flags were enrolled at your school (new students or transfers) or identified as active ELL students <u>after</u> test materials were ordered. Materials for these students will <u>not</u> be included in your materials shipment. Please order materials from *assessment.materials@browardschools.com* if necessary.
