It is important to note for State and District assessments, ELLs (LY and LF) must have access to an English-to-heritage language translation dictionary and/or heritage language-to English translation dictionary, and/or a content specific glossary such as those made available to ELLs in an instructional setting. However, a dictionary providing definitions or pictures, written exclusively in the heritage language or in English may not be provided during administration of State and District assessments. Use of electronic dictionaries is strictly prohibited and may be cause for invalidation.
