Observer in Canvas

Become an Observer in Canvas

You can become an observer in your child's class on Canvas to be able to see everything your child sees in their Canvas courses without disrupting any announcements or "unread" items. As an observer, you have your own log-in so there's no fear of being locked out of Canvas if your child changes their password.

Disclaimer: the Canvas parent app has limited functionality. For this reason, we encourage all parents to use their internet browser to access canvas. You can log into canvas as a parent observer in this link.

Print Directions: How to Become an Observer 2

How to get Parent Access to Canvas:

- 1) Have your student login to Clever and Click on Canvas
- 2) Click on Account (left navigation bar)
- 3) Click on Settings
- 4) Click on Pair With Observer (it's on the right hand side of the screen)
- 5) Write down the code listed
- 6) Go to https://browardschools.instructure.com/login/canvas
- 7) Click where it says, Parent of a Canvas User? Click here for an account.
- 8) Enter your email, a password, and the code you copied.

This allows you to be an observer in Canvas. Logging in on a computer, as opposed to using the Parent App on your phone allows you to view a lot more than the app does. You can see assignments, their directions, upcoming due dates, announcements. You can also email teachers through the Canvas Inbox. Parents that work for BCPS need to set up their observer accounts with a personal email address.

MAIN IDEA PRACTICE

18 words was all it took to send a stock spiraling, losing nearly \$1 billion in value in one day. Who had the power and influence to cause such chaos? The credit goes to reality television 5 star and mega social media influencer Kylie Jenner, whose tweet about Snapchat's redesign sent waves through Wall Street.

In February 2018, Jenner asked her 24.5 million Twitter followers, "sooo does anyone 10 else not open Snapchat anymore? Or is it just me..." The tweet received 255,000 "likes" and was retweeted 45,000 times. That same day, Snapchat's stock dropped 8%.

Jenner's wasn't the only costly tweet,

15 though. In 2015, President Trump tweeted that
Boeing's "costs are out of control," resulting in
the company's stock dropping by nearly \$2 a
share. Likewise, on the same day Trump tweeted
criticism of Lockheed Martin, the company's

20 stock decreased by 2%, losing \$1.2 billion in
market value.

On the flip side, a positive endorsement by a celebrity can lead to big financial gains for investors. When Oprah Winfrey announced her deal with Weight Watchers in 2015, the company's stock doubled in one day and saw a whopping 279% increase the following month. Appealing to younger consumers, DJ Khaled's role as a Weight Watchers social media ambassador caused a 7% uptick in Weight Watchers' stock.

- 1. The first and second paragraphs are mainly about
 - A) how Kylie Jenner has a huge social media following.
 - B) how nobody uses Snapchat anymore.
 - C) how Kylie Jenner is a social media influencer.
 - b) how Kylie Jenner's influence can impact stock prices.
- 2. Over the course of the passage, the focus shifts from
 - A) Snapchat to Twitter.
 - B) social media to diet companies.
 - c) one celebrity's specific influence to the impact of other public figures on several companies.
 - D) reality television stars to former talk show hosts.
- 3. Which of the following titles best describes the content of the passage?
 - A) Kylie Makes Stocks 'Snap'
 - B) Celebs Cause Stocks to Soar or Sink
 - C) SnapChat vs. Twitter: Which is Better?
 - D) Stock Market Highs and Lows

- Which of the following graphs represents the inequality ≤ ?
- Which values are in the solution set of the inequality $\frac{-2}{3}x + 13 \ge -1$?

3) A jug has a maximum capacity of 4 liters. It's filled to 85% of its capacity, and then poured out at a rate of 25 mL/s. Which of the following expressions models the volume remaining in the jug, in liters, after \boldsymbol{x} seconds?
